

OZONE GENERATOR

STANDARD

FULL GEAR SET 100%

↓ TECHNOLOGY

A perfect solution for disinfecting sports equipment. The ozone generator is installed directly in professional QBL boot dryers, thanks to which the disinfection of boots is even more effective. The natural properties of the ozone make the device effectively eliminate airborne bacteria, viruses, mold and unpleasant smell. Thanks to the touch display and extensive functions, the control of the ozonation process is simple and intuitive.

USAGE

The ozonation lasts 2 hours during the night mode operation, after which the dryer starts the room ventilation process by increasing air circulation.

REMOVAL OF UNPLEASANT SMELL

DECONTAMINATION - OZONATION KILLS VARIOUS PATHOGENS AND ODORS

REMOVING ALLERGENS, MITES, FUNGI, MOLD AND OTHER MICROORGANISMS

FUMIGATION OF AIR CONDITIONING
